

PRESS RELEASE

FOR IMMEDIATE RELEASE

MAY 9th 2017

SAULT STE MARIE. The TVM GROUP, a Toronto based developer and manager of residential and commercial real estate, is proud to announce the completion of its signature Northern Ontario residential condominium project, Riverwalk Condos.

Built on the site of the former Plummer Hospital in downtown Sault Ste. Marie Riverwalk Condominiums is a 40 suite, luxury condominium development rising on the north shore of St. Mary's river. Featuring spacious and thoughtfully designed suites, luxury finishes, and incredible amenities, Riverwalk Condos is a category creating development in the Northern Ontario real estate market.

The TVM Group is proud and thankful for our dedicated build team, project partners, tradesmen, city staff, councillors and support personnel who embraced and overcame some difficult construction challenges in order to deliver on our promise to build a true luxury condominium in Sault Ste. Marie.

Anyone interested in the project is advised that there remain three wonderful suites available at Riverwalk Condos. Please contact info@theriverwalk.ca for more information.

The TVM GROUP has reached the difficult decision to defer the development of Riverwalk Condos Phase 2 due to challenging and uncertain economic conditions. Effective immediately The TVM Group has instructed that all deposit funds be returned to Riverwalk Condos Phase 2 buyers. Though we deeply regret this difficult decision we are confident that it is the right one at this time. We fully intend to revisit the plans for the site in the near future and hope to continue development on this incredible parcel of land.

Thank you to everyone who has supported this project from the beginning. It has been a great pleasure connecting and serving the wonderful people of Sault Ste. Marie.
